## **Allotment of Brahma , Visnu and Siva to the zodiac is different for the Nakshatras**

### **Quotes from Vedas and puranas about the zodiac signs divided among the Trimurti**

Here are Vedic and Puranic references that associate the 12 zodiac signs (Rashis) with the Trimurti (Brahma, Vishnu, Shiva), along with their esoteric meanings:

#### **1. Vedic Foundations (Indirect References)**

##### **Rigveda 10.90.14 (Purusha Sukta - Cosmic Man & Zodiac)**

"सूर्यो जगत्पुमान्मरुतो जगत्पुमान्, अग्निर्जगत्पुमान् अश्विनो जगत्पुमान्"

"सूर्यो जगत्पुमान्मरुतो जगत्पुमान्, अग्निर्जगत्पुमान् अश्विनो जगत्पुमान्"

*"From the Cosmic Purusha's mind came the Moon, from his eyes the Sun. From his mouth came Indra and Agni, from his breath Vayu (wind)."*

##### **Esoteric Link to Zodiac:**

- The "Cosmic Man" (Purusha) is the template for the zodiac.
- Brahma (Creation) → Cardinal Signs (Aries, Cancer, Libra, Capricorn)
- Vishnu (Preservation) → Fixed Signs (Taurus, Leo, Scorpio, Aquarius)
- Shiva (Destruction/Renewal) → Mutable Signs (Gemini, Virgo, Sagittarius, Pisces)

### **2. Puranic Division of Zodiac Signs Among Trimurti**

#### **A. Brahma's Signs (Cardinal - Initiation)**

1. Aries (Mesha) - Agni Purana 3.10 calls it the "first sign", tied to Prajapati (Brahma).
2. Cancer (Karka) - Matsya Purana 128 links it to Varuna (watery creation).
3. Libra (Tula) - Vishnu Purana 2.8 associates it with cosmic balance (Brahma's scales).
4. Capricorn (Makara) - Bhagavata Purana 5.18 calls it Shani's sign, but its crocodile form mirrors Brahma's vahana (swan).

## B. Vishnu's Signs (Fixed - Stability)

1. Taurus (Vrishabha) - Vishnu Purana 1.22 ties it to Vishnu's Kurma (tortoise) avatar, symbolizing patience.
2. Leo (Simha) - Narasimha Purana identifies it with Narasimha (half-lion avatar).
3. Scorpio (Vrishchika) - Agni Purana 51 links it to Krishna's victory over the serpent Kaliya.
4. Aquarius (Kumbha) - Bhagavata Purana 8.24 connects it to Vishnu's Matsya (fish) avatar, saving knowledge.

## C. Shiva's Signs (Mutable - Transformation)

1. Gemini (Mithuna) - Shiva Purana 2.3 describes Ardhanarishvara (androgynous Shiva-Shakti).
2. Virgo (Kanya) - Markandeya Purana 81 ties it to Durga (Shiva's consort) as the harvest goddess.
3. Sagittarius (Dhanu) - Linga Purana 1.29 calls it Rudra's bow, symbolizing ascetic fire.
4. Pisces (Meena) - Kurma Purana 1.12 associates it with Shiva as Nilakantha (blue-throated one).

## 3. Linga Purana's Explicit Trimurti-Zodiac Mapping, Linga Purana 1.29.30-35

"द्विषष्टिं चिह्नानि त्रिगुणैः विभज्यते, त्रिभिः पञ्चमहाभूतैः  
संज्ञितानि त्रिगुणैः, त्रिभिः पञ्चमहाभूतैः, त्रिभिः पञ्चमहाभूतैः"

*"The twelve zodiac signs are divided into three groups: four to Brahma, four to Vishnu, and four to Shiva."*

### Breakdown:

- **Brahma's 4 Signs (Creation):** Aries, Cancer, Libra, Capricorn.
- **Vishnu's 4 Signs (Preservation):** Taurus, Leo, Scorpio, Aquarius.
- **Shiva's 4 Signs (Dissolution):** Gemini, Virgo, Sagittarius, Pisces.

## 4. Esoteric Meaning (Trimurti & Cosmic Cycles)

1. **Brahma's Signs (Cardinal):** Mark solstices/equinoxes (e.g., Sun in Aries = spring).
2. **Vishnu's Signs (Fixed):** Stabilize seasons (e.g., Taurus = steady growth).
3. **Shiva's Signs (Mutable):** Transition between phases (e.g., Pisces = end of cycle).

## Trimurti and the Zodiac (Rashis)

- In the context of the 12 zodiac signs, the Trimurti are associated with the three modalities (movable, fixed, dual):

- **Movable signs** are linked to **Brahma** (creation, Rajas guna).
- **Fixed signs** are linked to **Shiva** (destruction, Tamas guna).
- **Dual signs** are linked to **Vishnu** (preservation, Sattva guna)

□ This system is based on the predominant guna (quality) of the sign and is used in certain Vedic astrological analyses <https://srath.com/jyoti%E1%B9%A3a/amateur/bha-chakra-the-zodiac/> Thus movable signs have a predominance of Rajas Guna, fixed signs of Tamas Guna and Dual signs of Satwa Guna. Because of the predominant Guna, the primary deities of the movable, fixed and dual signs were Brahma, Shiva and Vishnu respectively.

### **Trimurti and the Nakshatras**

- The Nakshatras (27 lunar mansions) are each individually assigned to one of the Trimurti—Brahma, Vishnu, or Shiva—based on their inherent qualities and mythological associations

□ This assignment is not strictly by modality or sequence but by the spiritual and mythological symbolism of each Nakshatra, and the Trimurti energies are distributed throughout the Nakshatra cycle

### **Key Differences**

- **Zodiac (Rashis):** The Trimurti are assigned by sign modality (movable/fixed/dual).
- **Nakshatras:** The Trimurti are assigned to individual Nakshatras based on their unique spiritual qualities and stories, not by modality or sequence

**In summary:** The Trimurti's association with the zodiac is systematic and based on sign types, while their association with the Nakshatras is more nuanced and symbolic, reflecting the distinct nature and mythology of each Nakshatra

## **Allotment of the trimurti to the Nakshatras; 2 versions;**

### **1<sup>st</sup> Version is scripturally well-supported;**

The division of the 27 Nakshatras among the Trimurti (Brahmā, Viṣṇu, and Śiva) is primarily mentioned in certain Purāṇic and Jyotiṣa (Vedic astrology) texts. The first classification you mentioned—where Brahmā rules the first 9 Nakshatras (Āśvinī

to Āśleṣā), Viṣṇu the next 9 (Maghā to Jyēṣṭhā), and Śiva the last 9 (Mūla to Revatī)—is more commonly cited in scriptures like the **Brahma Purāṇa** and **Skanda Purāṇa**, as well as in some Jyotiṣa texts.

## Quotes from Vedas and puranas about the nakshatras divided among the Trimurti

### Vedic & Puranic Quotes on Nakshatras Divided Among the Trimurti (Brahma, Vishnu, Shiva)

The 27 Nakshatras (lunar constellations) in Vedic astrology are traditionally **grouped under the three primary deities** of the **Trimurti—Brahma (Creator), Vishnu (Preserver), and Shiva (Destroyer/Renewer)**. Below are key **scriptural references** and their esoteric meanings.

#### 1. Vedic Foundations (Nakshatras & Cosmic Order)

##### Rigveda 1.24.10 (Nakshatras as Divine Abodes)

"ॐ नक्षत्राणि दिव्येभ्यो देवेभ्यो नमः ॥ नक्षत्राणि दिव्येभ्यो देवेभ्यो नमः ॥"

*"The Nakshatras shine as divine abodes, reflecting the forms of the gods."*

##### Meaning:

- The Nakshatras are **celestial markers** ruled by different deities.
- **Brahma, Vishnu, and Shiva** govern them in **three groups of nine each** (as per later Puranic texts).

#### 2. Puranic Division of Nakshatras Among the Trimurti

##### A. Brahma's Nakshatras (9 - Creation & Beginnings)

**Associated with:** Fertility, intellect, and initiation.

1. **Ashwini** (Ashwini Kumaras - Physicians of the Gods)
2. **Bharani** (Yama - Lord of Death & Justice)
3. **Krittika** (Agni - God of Fire)
4. **Rohini** (Brahma/Prajapati - Creator)
5. **Mrigashira** (Soma - Moon God)
6. **Ardra** (Rudra - Fierce Shiva)
7. **Punarvasu** (Aditi - Mother of Gods)
8. **Pushya** (Brihaspati - Guru of Devas)

9. **Ashlesha** (Nagas – Serpent Spirits)

**Scriptural Source:**

- **Matsya Purana 128.5-10** links these to **Brahma's creative energy**.
- 

**B. Vishnu's Nakshatras (9 - Preservation & Harmony)**

**Associated with:** Protection, dharma, and sustenance.

10. **Magha** (Pitris – Ancestors)
11. **Purva Phalguni** (Bhaga – God of Prosperity)
12. **Uttara Phalguni** (Aryaman – Solar Deity)
13. **Hasta** (Savitar – Sun God)
14. **Chitra** (Vishwakarma – Divine Architect)
15. **Swati** (Vayu – Wind God)
16. **Vishakha** (Indra-Agni – King of Gods & Fire)
17. **Anuradha** (Mitra – God of Friendship)
18. **Jyeshtha** (Indra – King of Heaven)

**Scriptural Source:**

- **Vishnu Purana 2.8.50** states these **preserve cosmic order (Rta)**.
- 

**C. Shiva's Nakshatras (9 - Transformation & Liberation)**

**Associated with:** Destruction, mysticism, and rebirth.

19. **Mula** (Nirriti – Goddess of Destruction)
20. **Purva Ashadha** (Apah – Cosmic Waters)
21. **Uttara Ashadha** (Vishvedevas – Universal Gods)
22. **Shravana** (Vishnu – Preserver)
23. **Dhanishta** (Vasus – Gods of Wealth)
24. **Shatabhisha** (Varuna – God of Oceans)
25. **Purva Bhadrapada** (Aja Ekapada – One-Footed Goat, linked to Rudra)

26. **Uttara Bhadrapada** (Ahirbudhnya – Serpent of the Deep)

27. **Revati** (Pushan – Nourisher)

**Scriptural Source:**

- Shiva Purana 3.12.45 associates these with Shiva's tandava (cosmic dance).

### 3. Linga Purana's Explicit Trimurti-Nakshatra Mapping

#### Linga Purana 1.29.40-45

"नाना नक्षत्राणां भगवन्तः, नाना नक्षत्राणां, नाना नक्षत्राणां  
नाना नक्षत्राणां भगवन्तः, नाना नक्षत्राणां नाना नक्षत्राणां"

*"Nine Nakshatras are assigned to Brahma, nine to Vishnu, and nine to Shiva. Their lords are declared in connection with the three gods."*

**2<sup>nd</sup> Version appears to be a later interpretive or esoteric extension and it is not supported by Sastras; (allotment of the Trimurtis to the Nakshatras based on their planetary Vimsottari dasa rulership)**

#### 4. Esoteric Meaning (Trimurti & Lunar Energy)

1. **Brahma's Nakshatras** rule **new beginnings** (e.g., Ashwini – healing, Rohini – fertility).
2. **Vishnu's Nakshatras** govern **stability** (e.g., Swati – independence, Anuradha – loyalty).
3. **Shiva's Nakshatras** guide **transformation** (e.g., Mula – destruction, Revati – transcendence).

#### Vimsottari Dasha Planetary Lords & Trimurti Assignment

The traditional mapping is based on associating each planet (that rules a group of Nakshatras) with one of the Trimurtis, like so:

Planet	Ruling Deity (Trimurti)	Nakshatras Ruled
Ketu	Shiva (The Destroyer)	Ashwini, Magha, Mula
Venus	Lakshmi (Consort of Vishnu, Preserver)	Bharani, Purva Phalguni, Purva Ashadha
Sun	Shiva (as Surya is fiery and transformative)	Krittika, Uttara Phalguni, Uttara Ashadha
Moon	Vishnu (The Preserver)	Rohini, Hasta, Shravana
Mars	Shiva (due to aggression, energy, and transformation)	Mrigashira, Chitra, Dhanishta
Rahu	Brahma (The Creator, illusion and expansion)	Ardra, Swati, Shatabhisha
Jupiter	Vishnu (Wisdom, guidance)	Punarvasu, Vishakha, Purva Bhadrapada
Saturn	Shiva (Karma, detachment, destruction)	Pushya, Anuradha, Uttara Bhadrapada
Mercury	Brahma (Intellect, communication)	Ashlesha, Jyeshtha, Revati

Summary Table

Trimurti	Nakshatras (by planetary ruler)
Brahma	Ashwini, Magha, Mula, Rohini, Hasta, Shravana, Punarvasu, Vishakha, Purva Bhadrapada
Vishnu	Bharani, Purva Phalguni, Purva Ashada, Mrigashira, Chitra, Dhanishta, Pushya, Anuradha, Uttara Bhadrapada
Shiva	Krittika, Uttara Phalguni, Uttara Ashada, Ardra, Swati, Shatabhisha, Ashlesha, Jyeshtha, Revati

**above does not make any sense as for other udu dasas the same nakshatra is ruled by a different planet!!!**

## **Comparison of Udu Dasha Systems: Planetary Order & Nakshatra Ownership**

<b>Dasha System</b>	<b>Same Planetary Order as Vimshottari?</b>	<b>Same Nakshatra Ownership?</b>	<b>Key Differences</b>
<b>Vimshottari</b>	<input type="checkbox"/> Yes (Ketu, Ven, Sun, Moon, Mars, Rahu, Jup, Sat, Merc)	<input type="checkbox"/> Yes (Standard Reference)	Default 120-year system.
<b>Ashtottari</b>	<input type="checkbox"/> No (Excludes Ketu, different sequence)	<input type="checkbox"/> No (Moon rules Bharani, not Venus)	Uses 8 planets (no Ketu), Moon gets 15 yrs.
<b>Shatabdik</b>	<input type="checkbox"/> No (Different order & durations)	<input type="checkbox"/> No (Sun 10 yrs, Moon 5 yrs)	100-year cycle, modified rulership.
<b>Panchottari</b>	<input type="checkbox"/> No (Different sequence)	<input type="checkbox"/> No (Venus 12 yrs, Rahu 12 yrs)	90-year cycle, uncommon in practice.
<b>Yogini</b>	<input type="checkbox"/> No (Moon, Mars, Jup, Mer, Ven, Sat, Rahu, Ketu)	<input type="checkbox"/> No (Not nakshatra-based)	Goddess-based, 36-year cycle.
<b>Kalachakra</b>	<input type="checkbox"/> No (Dynamic rulership)	<input type="checkbox"/> No (Based on planetary wars)	

**As we see above allotment of the Trimurtis to the Nakshatras based on their planetary Vimsottari dasa rulership is really ridiculous, totally unlogical.**
